PURPOSE OF THE PROGRAM:

The program, "PROPEACE: Empowering Youth Leaders for Sustainable Peace and Democratic Engagement in the DRC", is designed to combat ethnic tensions and resource-driven conflicts, both during and beyond this year's presidential elections. By selecting and equipping 25 youth leaders from different political backgrounds, the program not only aims to promote stability during the elections but also to establish a sustainable legacy. Through inclusive dialogues, stakeholder collaboration, and expert guidance, the program empowers these leaders as catalysts for peace, ensuring a lasting impact in the Democratic Republic of the Congo.
